

# Bachelor of Business Analytics

Victoria's #1 university for student support<sup>1</sup>

Among the top 1% of universities worldwide<sup>2</sup>

Deakin Business School is in the top 1% of business schools globally by holding both AACSB and EQUIS accreditations

## Course overview

Launch a career in the booming world of business insights with Deakin's Bachelor of Business Analytics. With hands-on experience in real-world projects, you will become a confident business analytics translator capable of unlocking innovative solutions for businesses using data insights.

In Victoria's longest running specialised business analytics course, you will learn practical commercial skills to interpret data and information, so you can solve complex organisational problems and create opportunities for businesses. Our industry leaders including IBM, Deloitte and PwC shape our course content ensuring you graduate with a degree aligned with current and future business needs.

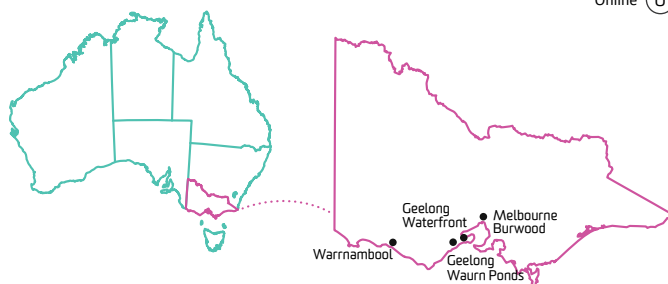

## Course structure\*

To complete the Bachelor of Business Analytics, students must attain a total of 24 credit points plus completion of the compulsory 0-credit point module, DA1001 Academic Integrity Module. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

Course code	Years full-time	Trimester intake	Campus	2026 annual course fee
